Tradition’s Biofuels Desk closes the first ever Rapeseed Oil Swap

On 3 August 2010 Tradition’s London based Biofuels desk closed the world’s first rapeseed oil swap between TOTSA S.A., based in Geneva, and a continental based fuel distribution company. The deal was for 1,000 metric tonnes for settlement in August 2010. The swap will be settled against the rapeseed oil FOB Dutch Mill Euro/T quote in Argus Biofuels, published by Argus Media.

Kees Schipper, Senior Broker, Biofuels at Tradition comments,

“With the ongoing growth in biodiesel and grain derivatives market, trading of rapeseed oil swaps is a natural progression. Tradition is a full service energy broker and biofuels are the latest product to be added to our range of products covered”
